Independent Democratic Official Paper of City of Richmond

WAR AND BAD BOYS

Nearly all the warring countries have boasted of lessened crime. The war is said to have had a good effect on criminals by arousing their latent patriotism. But if men have improved, boys have not.

England, with its jails emptier of adult offenders than ever before, is having a juvenile crime wave. They are not very serious crimes, as a rule, but they show a growing disposition to lawlessness that is worrying the British nation. In London the number of boys arrested has nearly doubled in a year. Many of the offenses of theft and violence are committed by youngsters who plead the excuse of "playing war." But there's more than mere imaginative imitation of their elders. There is recklessness attributed to a lack of parental control, due to the absence of fathers. A contributory cause is the diminished influence of schools. There are fewer teachers, and since many of the school buildings are used for military purposes school hours have been shortened.

Thus, while grown-up England is submitting to unwonted discipline, young England is running wild. And the same situation seems to exist in the other countries. Even in Germany, where boys are usually tractable and obedient, there is a new and puzzling boy problem.

It's another of the unforseen by-products of war.

THE DUMBA INCIDENT

Austria-Hungary has at last decided to appoint a new ambassador to the United States, to take the place of the late lamented Dr. Dumba. The man selected is said to be Count de Tarnow-Tarnowski, who has been representing his government at Sofia.

Nobody seems to know much about this Tarnow person, but it's safe to assume that he is a safe and sane diplomat who will conduct himself with more regard for American neutrality than his predecessor did. Dr. Dumba, it will be remembered, was sent about his business last year for his activity in promoting strikes in American munition factories asd otherwise interfering with internal affairs.

Austria-Hungary has never officially admitted that we were justified in demanding Dumba's recall. In fact, our action in that matter has been a sore point with the Austro-Hungarian government. Now the incident may be regarded as closed. Either Austrian resentment has died out or else Austria has decided that it's wise to begin cultivating American good will against the time when the allies try to carve Austria to pieces.

Kissing your neighbor's wife may be great sport, but kissing your own is a great deal safer.

The Lord loves an honest man, but he is not around tagging them as such.

Thank Lord we only have two feet. Shoe leather has gone up again.

The fellow who thinks talk is cheap needs a censor for his mouth.

Perk up, Dad! Chrismas will soon be here—and so will the bills.

NEW PAPER FROM OLD

The high cost of print paper is largely responsible for bringing into the limelight Dr. Thomas Jasperson, who is confident he has invented a process whereby old newspapers are transformed into pure white stock, to be again used for newspaper printing. The process has had an actual test, newspapers yellow with age having been converted into rolls of spotless paper and used for several issues of a Neenah newspaper. Dr. Jasperson is being besieged with inquiries from all over the country.

The process removes all ink from the old newspapers, and they are ground up, made into pulp, and run through a papermaking machine, coming out immaculate, whiter than the original paper. Dr. Jasperson worked more than four years before he perfected his compound. He completed his work about a year ago. He persuaded a paper manufacturer at Kalamazoo, Mich., to make a test. The result was a success. A few weeks ago, the mill of the Combined Locks Paper company made one run of the Jasperson paper. It was used in the publication of the Neenah paper, and the result was a paper firm, white, and of excellent quality.

In this process the old newspapers are put into the beater, or mixing machine, and a chemical is added. By this the lampblack is extracted and the paper pulp is bleached clear white. The mass is washed several times before it is run through the rolls, from which it comes, dried by heat, in a fine white sheet, and is rolled on a spool for use. No change in plant are necessary. The same machinery is used. The inventor has received a patent from the United States.

A mill is being equipped at Chicago where his processes will be used.

NOTICE TO TAXPAYERS

State and County Taxes for the Fiscal Year 1916-1917.

Office of the Collector of State and County Taxes, Martinez.

Notice is hereby given that I have received from the Auditor of Contra Costa County the Duplicate assessment book for the fiscal year 1916-1917, and

1st. That the taxes on all personal property secured by real property, and one-half of the taxes on real property will be due and payable on the

Third Monday in October, 1916, and will be delinquent on the

First Monday in December next thereafter, at six o'clock p. m., and unless paid prior thereto, fifteen per cent will be added to the amount thereof, and if said one-half be not paid before the

Last Monday in April, 1917 at six o'clock p. m., an additional five per cent will be added thereto. The remaining one-half of the taxes on all real property will be payable on and after the

First Monday in January, 1917, and will be delinquent on the

Last Monday in April, next thereafter, at six o'clock p. m., and unless paid prior thereto, five per cent will be added to the amount thereof.

2d. That all taxes may be paid at the time the first installment, as herein provided, is due and payable.

3d. That payment of taxes must be made at the office of the Tax Collector, in the town of Martinez.

M. W. JOOST,
Tax Collector of Contra Costa County

NEW STUDIO

Having returned to Richmond and opened up a studio at my old stand, 1108 Macdonald avenue, I will be glad to have my old friends and patrons call and see me.

dec5-1mo R. P. DAMMAND

"GIVE ME SOME FOX FURS OR A NEW COAT"

"If you really want to please me!"

This is what one very sensible woman said to her husband the other day when he asked her what she wanted for Christmas. She'll be happy, indeed, on Christmas morning when she finds that he's given her not only Furs and not only a Coat, but BOTH!

This is the "how of it." He isn't a man of large financial resouces. In fact, his wife has to scheme a bit to make his salary stretch, sometimes. But this lady needs the things she asked for and so has her husband, since he won't have sufficient money before Christmas to buy them, has selected them at CHERRY'S SHOP and will pay most of the price after Christmas.

Why don't you tell someone you'd like a pretty set of Fox Furs from CHERRY'S smart display? You might drop in first and see which color you prefer. CHERRY'S have all varieties—white, black, red, etc.

Also, this popular shop has wide and up-to-date assortments of all outer wearables—Suits, Coats, Dresses, etc., for women, and Suits and Overcoats for men.

You will find Cherry's women's store at 515 13th street, and the other for men is at 528 13th street, Oakland. San Francisco has two stores, one at 2400 Mission street, corner 20th, and 1009 Market street, above 6th street. The others are in Tacoma, Portland, Los Angeles and Sacramento.—Advt.

MAY HAVE FIREWORKS FOR NEW YEAR'S FETE

Whether or not a fireworks display will be arranged for the municipal wharf celebration on New Year's night will be definitely settled by the committees in charge of the affair this evening. A communication was received by City Clerk A. C. Faris from the Newton Fireworks company of San Francisco, asking permission to bid on fireworks for the celebration.

PAVING COMPANY HEADS TO VISIT IN THE NORTH

Much highway construction work which is planned in Washington and Oregon during the coming spring is responsible for Frank Welch and Charles Johnson, at the head of the Richmondite Paving company in this city, preparing to leave for a business trip through those states.

Welch and Johnson will leave next week. They will be away until the first of the year.

TILDEN LUMBER CO. TO GIVE CHURCH LUMBER

The third donation in material toward the erection of the First Christian church, corner of Sixth street and Bissell avenue, was made by the Tilden Lumber company today. Other donators were the San Pablo Quarries company, who offered the rock, and the San Francisco-Oakland Terminal Railways company, who will haul the material.

The Tilden Lumber company will furnish all the lumber for the forms for the church foundation.

HIGH MASS IS SAID FOR MRS. MARTINEZ

High mass for the late Mrs. C. Martinez was said by Rev. Father Joseph Ports at St. Paul's Catholic church, San Pablo, at 10:30 this morning. Interment was made in St. Joseph's cemetery.

The deceased was well known in this city where she had resided for many years.

IN POOR HEALTH

Mrs. W. E. Striplin of 139 First street and wife of the well known expressman, is suffering from an acute attack of paralysis.

ENJOY SOCIAL NIGHT

A very enjoyable social evening was held by the members of Richmond lodge of Moose for visitors and their lady friends in Moose hall last night. Under the able direction of Dictator Dan Mulcahy the affair turned out to be one of the most successful parties which the Moose have participated in this year.

SATISFACTION GUARANTEED

Work called for and promptly returned. We know that some people are skeptical and regard the cleaning of soiled articles as uncertain and experimental. Given a trial, we will convince the most skeptical that our finished work looks as good as new.

FIGHT ON CANADIAN TREATY PREDICTED

SENATOR McLEAN. SEC'Y. PEARSON IN THE FIELD

Reports to the U. S. Biological Survey indicate that plume dealers, sportsmen and others opposed to sane legislation to prevent the extermination of many species of game birds and others are awakening to a realization that the new migratory-bird treaty entered into between the United States and Canada is a coup on the part of the bird protectionists.

Opponents of bird protection, in their fight against the federal migratory-bird law, of which Senator McLean, of Connecticut, is the father, carried their case to the United States Supreme Court, which has not yet handed down a decision. Without awaiting the decision, the National Association of Audubon Societies, through Senator McLean and Chief Henshaw, of the Biological Survey, succeeded in having a treaty ratified with Canada which, automatically, established federal control of all migratory birds whether the present federal law be declared constitutional or not.

"The question of the treaty will be brought up before Congress," said T Gilbert Pearson, secretary of the Audubon Societies, at the New York headquarters of the Association, "and it is desirable for all friends of birds to communicate with their senators and representatives and express their desire that the 'enabling act' giving force to the treaty be passed by Congress. There will probably be a big fight over this bill at the coming session.

"In an effort to arouse a friendly and protective interest in birds, the Audubon societies have published small two-cent illustrated pamphlets describing practically every species and explaining their dollar-and-cents value to the Nation. To increase the game birds, we have published a twenty-five-cent book telling farmers and others of the profitable propagation of wild game birds on the farm and how it can be done. This protective work and our many other efforts, however, would be inadequate without the power of the federal authorities to fix game seasons for which the new treaty provides."

PLOT TO BLOW UP POWDER WRS. AT PINOLE TOLD

SAN FRANCISCO, Dec. 15.—The detailed story of the alleged conspiracy involving German Vice-Consul Eckhart von Schack and Lieutenant Wilhelm von Brincken in the so-called attempt to blow up munitions and supplies destined for the entente allies, as told by Louis Joseph Smith, confessed spy and bomb planter, was attacked this morning in cross-examination by Attorney Theodore Roche for the defense. The cross-examination will probably be long and grilling.

Smith declared that the following five jobs were the largest and most important planned by himself and Crowley: The dynamiting of the Union Stockyards in Chicago to stop the shipments of horses to the allies; the dynamiting of the St. Clair tunnel, running under the river between Port Huron, Mich., and Sarnia, Canada; the dynamiting of cars loaded with munitions in St. Thomas, Canada; the dynamiting of the Hercules Powder company's plant at Pinole; the dynamiting of the plant of the Dupont Powder company at Dupont, Wash.

S. O. TANKER ASHORE OFF CHINESE COAST

SAN FRANCISCO, Dec. 15.—Advices received by the marine department of the Chamber of Commerce this morning state that the British tank steamship Mitra, bound from New Orleans for Shanghai, is ashore outside the harbor of Woosung. Assistance has been sent to her. The Mitra is under charter of the Standard Oil company, and is known in this port.

NAVAJO HITS SNAG, FORCED TO DRY-DOCK

(Special to Record-Herald)

MARTINEZ, Dec. 15.—While on her way from Sacramento to San Francisco the Southern Pacific steamer Navajo, ran into a sunken snag off Pittsburg and tore a large hole in her bottom. The captain headed her for the beach, the passengers were sent here by rail and the wrecking crew sent to assist the steamer which was patched up and towed to the Oakland shipyard of the company, where she is now on the drydock. The Navajo was built after the sister steamer named Seminole.

HOUSE REPORTS VERY FAVORABLE FOR DRYS

WASHINGTON, Dec. 15.—The house judiciary committee today reported favorably a bill for nation-wide prohibition, reported the women's suffrage bill without recommendation, and reported favorably a bill for a nationwide food investigation.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act in the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

H. C. CAPWELL CO. — OAKLAND — H. C. CAPWELL CO.

Capwells is Now One Big show room of Christmas Gifts

The store was never so cheery, its Christmas spirit never so infectious and the people never so pleased. Now that the rush days are full upon us, this great center of Oakland's gift-buying activities is amply prepared to fill your needs. Stocks are very compete and the store service prompt and efficient.

The Christmas Store Reliable

Its all-year-round usefulness to the community broadens in scope immensely at the holiday season.

Now it is at its Christmas best—its helpful, practical activities breathe the atmosphere of good cheer.

The stocks are magnificent—the service is keyed up to its highest efficiency.

ANN PENNINGTON, FAMOUS PLAYERS STAR IN PARAMOUNT PICTURES.

If we were simply to caption this picture "A scene from Ann Pennington's next Famous Players-Paramount picture, 'The Rainbow Princess,'" it might lead to a serious case of mistaken identity. The eye traveling to the most conspicuous object first, one might be deceived as to which of the feminine figures is that of the star. The diminutive sylph on the extreme left who seems to be posing as a model for the Beef Trust is not Miss Pennington, nor is the lady who is serving as a hatrack for the snake. So we arrive by the process of elimination to the inevitable conclusion that Miss Pennington is the figure seated on the ground futilely trying to stare through the gigantic proportions of the Obese Wonder. "The Rainbow Princess" marks the second appearance of the little Ziegfeld "Follies" star on the screen, her debut having been made as Susie Snowflake in the production of that name which appeared several weeks ago.

PRINCIPAL FEATURES OF ALBANY SITE SUBMITTED TO U. S. BOARD; DECISION PROMISED SHORTLY

Rear Admiral James Helm and the members of the naval base commission have today taken the six proposed naval base sites on San Francisco bay under consideration. They are: Vallejo, Albany, Hunter's point, Point San Pablo, Marin county and San Leandro.

GOVERNMENT STAKES.

According to members of the Industrial Commission and the Chamber of Commerce, the Albany site is the only one about the bay where the government has seen fit to erect marking posts to outline the proposed site.

The principal points which the commission has taken into consideration relative to the Albany site is contained in the following condensed report of Wells Drury, secretary of the Berkeley Chamber of Commerce. It follows:

Secretary Wells Drury, of the Berkeley Chamber of Commerce, presented the following to the commission:

Hon. Commission of Navy Yards and Naval Station. Gentlemen:

We respectfully submit the following summary of points of merit possessed by the Berkeley-Albany-Richmond site offered for a naval station on San Francisco bay, which we believe to be entitled to your consideration in selecting a site for a naval station in these waters:

Location—This site is on the continental side of the bay of San Francisco, thus enjoying all advantages arising from direct connection with all parts of the country, free from ferry hindrance and expense. See map of Fleming's point and Point Isabel area.

Defense—Easily defended by land and water. Fortifications on the Farallones and at the Golden Gate would keep hostile fleets so far from shore that said station would be immune from attack by sea. Invading forces could not reach it by land without making wide and hazardous detour, whether landed north or south of the Golden Gate.

El Cerrito, a hill 320 feet high, directly back of the proposed site, would give shelter for powder magazines of mammoth proportions, and would afford facilities for establishing batteries that would sweep the country in every direction.

Approachability—There is a channel forty feet deep from the Golden Gate to a point opposite the proposed channel to such naval station and dry docks (as shown by U. S. Coast and Geodetic Survey, corrected to September 29, 1916), "soundings in feet at mean lower low water."

Dredge and Fill—We are informed by engineers who have studied the problem that the excavation of a basin or dry dock channel from the channel of the bay would cost no more than excavation or dredging at any other point that may be mentioned as a probable site. The gently sloping bed of the bay until it reaches deep water would facilitate the construction of dry docks large enough to receive the largest superdreadnaughts. The spoil from the excavation would produce solid fills for quays and shops, and it is estimated that new land thus created or developed would be sufficient to equal the expense of dredging.

H. A. STIVER, Agent.

WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Don't eat, bite of breakfast until you drink glass of hot water.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Advt.

AT MARTINEZ

Constable J. Moitoza of San Pablo who has been working with the sheriff's office in a search for the slayers of the two game wardens at Pittsburg several days ago, was in Martinez yesterday relative to that affair.

"What do you know about that—a MILD cigarette that *satisfies!*"

Chesterfields have done "the impossible"—they *satisfy* and yet they are *not* strong. They are MILD! Chesterfields do for your smoking what bacon and eggs do for your breakfast—they *satisfy*.

And yet Chesterfields are MILD—that's the point.

No other cigarette can give you this *new* enjoyment (satisfy yet mild) because no cigarette maker can copy the *Chesterfield blend*.

This blend is an entirely *new* combination of tobaccos and is undoubtedly the most important new thing in cigarette making in 20 years.

SAHARA DESERT SCENE OF POWERFUL FILM PLAY "LESS THAN DUST" AT RICHMOND THEATRE MON.

MARY PICKFORD, "IN LESS THAN THE DUST" AT THE RICHMOND MONDAY AND TUESDAY

One of Mary Pickford's companions in her new picture, "Less Than the Dust," at the Richmond theater Monday and Tuesday, will be a camel who lends a great deal to the atmosphere of the scenes inasmuch as many of them are laid in East India. It is said that the circus season nearing a close the camel thought it best to get into the movies and make an engagement that would carry him into the winter. He, and his name is Abdul, formerly lived in the east but came to this country with his parents. He doesn't remember any of his early days but says that he likes the country of his adoption and is more than pleased at being and acting in a branch of the dramatic art that continually keeps him before a camera and always in the public eye. However, Abdul is far from being vain.

Night on the Sahara desert is the most romantic spot on earth. Out there on the hot sands where one can almost reach up and grasp the jeweled stars is where the plot for "Less Than Dust," in which Miss Mary Pickford stars, is laid. This wonderful desert picture comes to the Richmond theater on next Monday and Tuesday.

"COMMON LAW" TODAY AND TOMORROW.

Mrs. Beryl Morhange, in charge of the scenario department of the Clara Kimball Young Film corporation, was born in the Isle of Wight, England, and received her education in Paris. She is a proficient linguist and devotes her time seeking new material for pictorial production for Miss Young both in French and Spanish, as well as English. She has written several short stories that have been published in England and numerous original scenarios.

Mrs. Morhange is also an actress of ability having played in legitimate with such famous artists as Sarah Bernhardt, Jeanne Granier and Granville Barker. In motion pictures she will be remembered as "Nannie" in Mr. Capellani's beautiful production of "Camille," starring Miss Clara Kimball Young.

OIL SHIPMENTS EXCEED PRODUCTION SAYS REPORT

According to data furnished yesterday by the statisticians of the Standard Oil company of California, the wide discrepancy between production and shipments from the oil fields, which has existed for several months, is again reflected in the oil field statistics for November.

The November production of crude oil averaged 263,000 barrels daily or a decline of 3,311 barrels daily compared with the October showing.

Shipments during November, on the other hand, attained a new high record. They averaged 310,008 barrels a day, or an increase of 6,356 barrels daily over the October figure.

"BABY" SLINGSBY IS LOSER IN BIG FIGHT

LONDON, Dec. 15.—The house of lords refused the appeal in the Slingsby legitimacy case yesterday without calling upon the respondents.

In giving judgment the house of lords held that it had been established that the child in question was the son of Lillian Anderson and that it also had been proved that the child was handed over to Mrs. Slingsby. The house of lords expressed regret at the pain caused by the decision to "the gallant officer who is now serving his country—Commander Slingsby."

BAY POINT LIGHT CO. HEARING BEFORE BOARD

Before Examiner Philip Bancroft of the Railroad Commission today in San Francisco there will be heard the application of the Bay Point Light and Power comany to sell, and the Bay Point Utilities company to buy electrical and water systems in Contra Costa county, and the Bay Point Utilities company for authority to issue 147 shares of its stock in payment therefor.

WILL TAKE TRIP

Mrs. E. E. Curtis of the law office of Attorney T. H. DeLap, will leave tomorrow for a three weeks' trip to Clarkston, Wash., and Lewiston, Idaho. Mrs. Curtis will spend Christmas with relatives in Idaho.

30 CENTS DOZEN FOR EGGS PAID TO TULARE PRODUCERS

TULARE, Dec. 15.—The highest price in the history of the Tulare Co-operative Poultry association will be paid for the November delivery of eggs, according to announcement yesterday. Manager Foss reports that payment to the members will be made on the basis of 50 cents per dozen for firsts. The association handled 6857 dozen eggs during the thirty-day period, the total business amounting to $5534.

SECOND BABY SENT TO DOCTOR WOOLSEY

BERKELEY, Dec. 14.—"I am going to send you a baby," said a strange voice over the telephone to Dr. Frank R. Woolsey, 2244 Dwight way, Tuesday night.

"All right," responded the doctor, "but don't send it here; send it to the hospital."

A few minutes later nurses at the Roosevelt hospital, responding to the front woor bell, found a two weeks' old baby wrapped in a warm woolen blanket on the porch.

This is the second baby left to the care of Dr. Woolsey within a year. The first was left in the arms of the doctor's daughter, Miss Katherine Woolsey, by a man, who leaped into an automobile and sped away.

The first baby, named Teddy by nurses at the hospital, was adopted by a family in the country.

RUMANIAN PREMIER RESIGNS

LONDON, Dec. 15.—The resignation of Premier Bratiano of Rumania is reported by the Budapest newspaper Avillag, as quoted in an exchange telegraph dispatch from Copenhagen.

PROSPERITY THRONGS TRAINS DURING "HOME VISITORS' WEEKS"

Big crops and prices are the romance of the holiday travel this year on "home visitors" rates, for those who return to their old homes from the cheap land districts breeze into the railway stations of the big centers all dolled up with smiles and fur-lined coats. Even the baggage advertises prosperity; the railroads are taxed to furnish dining and sleeping cars for the folks who are going de luxe to family reunions to laugh over the trips out a few years ago in day coaches with a lunch box for the family commissary.

At the Chicago stations the red caps shared in good fortune and the prodigals told some stories of real life which were stranger than fiction. There was the one of Joseph Grundler who, thirty years ago, was a renter in Livingstone county, Illinois, and now is overlord of 3,000 acres. It was Grundler who "staked" Amos Ribory, and now Amos owns 960 acres in the same neighborhood in Manitoba. Another neighbor from near Odell, in Illinois, owed over $4,000 in the fall of 1912, but now has "cleaned up" $10,000.

From east, west, north and south the holiday travelers, taking a respite from farm life, are pouring through the gates of the big stations. They and not the parties of mourners give the key to the spirit of the throngs; prosperity and lots of it is giving a jovial, infectious air to the waiting rooms; city dwellers who are fighting with the high cost of living have twinges of longing for a life which brings back home such abounding reason for thanksgiving all through the holiday season.

They'll Win Against Odds— if you'll help them

Little, weak, immature bodies need sunlight, fresh air and proper food to fight off Tuberculosis. Open air schools save lives.

RED CROSS CHRISTMAS SEALS are sold not only to cure but to protect little children from this deadly disease.

Buy these Seals — support the open-air school movement — and have the satisfaction of helping to save the lives of little ones who have small chance of life and happiness.

Buy Red Cross Seals of your local agent. The Seals support health work in the State where they are bought.
